Subject: New York State Department of Environmental Conservation CWA Section 10/404 - SP - South Fork Wind Offshore Wind Energy Project
Date: Wednesday, November 17, 2021 1:22:35 PM
Attachments: [2021.11.16 NYSDEC Permit Montauk O&M.pdf](#)
[PUBLIC NOTICE NAN-2020-01079-EME.pdf](#)

Good Afternoon,

Please see attached Water Quality Certification (WQC) issued by New York State Department of Environmental Conservation (NYSDEC) for the Operations and Maintenance Facility (O&M Facility) located within Lake Montauk, Town of East Hampton, Suffolk County, New York. I have also attached USACE public notice number NAN-2020-1079-EME which includes the original work description of the O&M Facility along with other proposed work relating to the offshore wind energy project. I must note that the proposed work description has slightly changed since the published public notice and an updated description of the proposed work at the O&M Facility can be found below.

For this particular project, two state certifying agencies, NYSDEC and New York State Department of Public Service (NYSDPS) are responsible for issuing a Section 401 WQC. As described above NYSDEC is responsible for the issuance of a 401 WQC at the O&M Facility and NYSDPS is responsible for issuing a 401 WQC for the South Fork Wind Export Cable (SFEC). It anticipated that NYSDPS will be issuing their Section 401 WQC no later than November 22, 2021.

Bureau of Ocean Energy Management (BOEM) is the lead federal agency for this project and USACE is acting as a cooperating agency under Section 10 of the Rivers and Harbors Act of 1899 (33 USC 403) and Section 404 of the Clean Water Act (33 USC 1344). It is important to note that this is a **Fixing America's Surface Transportation Act (FAST-41) project** and is tracked on the Federal Infrastructure Projects Permitting Dashboard.

Federal Permitting Agency: USACE

Federal Agency Point of Contact:

Robert Vietri

Project Manager

U.S. Army Corps of Engineers

New York District

Regulatory Branch-Eastern Section

26 Federal Plaza, Room 16-406

New York, New York 10278

P: 917-790-8379

Cell: 917-831-0278

Permit Type: Standard Permit

State: New York

Project Location: BOEM Renewable Energy Lease Area OCS-A 0517 (Deepwater Wind South Fork, LLC lease area), export cable landfall in Town of East Hampton, Suffolk County, New York, operations and maintenance facility in Lake Montauk, Town of East Hampton, Suffolk County, New York.

Lat/Long of O&M Facility: 41° 4'31.46"N -71°56'7.20"W

Major Watershed (HUC8): Lake Montauk Harbor

Project Type at O&M Facility: Dredging with 10-Year Maintenance with all resultant dredged

material placed as beach nourishment to the west of Lake Montauk Harbor. In addition the installation of structures such as a ramp, piles and floating pier.

Brief summary description of the project: Dredge, with 10-year maintenance, by mechanical clamshell bucket dredge up to approximately 2,500 cubic yards (CY) of sediment from an approximately 18,045 square foot area to a depth of 12 feet below the plane of mean low water, including a 1-foot overdepth. The resultant 2,500 CY of dredged material would be placed onto the shoreline west of the Montauk Harbor Inlet. The dredged material would be dewatered in an approximately 1,200-foot-long by 25-foot wide-area, landward of the plane of spring high water. Approximately 1,070 CY of the total 2,500 CY of the dewatered dredged material will be placed as beach nourishment within a 21,900 square foot area below the plane of spring high water. The permittee will conduct annual dredging and placement in the same locations up to approximately 1,500 cubic yards per event. From the existing bulkhead at the maintenance facility, install perpendicular to the shoreline a four-foot-wide by 28-foot-long ramp leading to a 16-foot-wide by 100-foot-long float in a L shaped configuration supported by five (5), two-foot diameter steel piles; install one (1) two-foot diameter steel monopile with donut fendering and mooring ring on the western terminus of the float.

Does the federal agency have reason to believe the project may affect the water quality of a neighboring jurisdiction? No

List tribes and states, if any, that were consulted regarding this project: Mashantucket Pequot Tribal Nation, Mohegan Tribe of Indians of Connecticut, Narragansett Indian Tribe, Mashpee Wampanoag Tribe, Shinnecock Indian Nation, Delaware Tribe of Indians, Delaware Nation, and Wampanoag Tribe of Gay Head (Aquinnah)

As per CFR 121.12 the Corps is requesting you notify this office if your office determines that the proposed discharge from the project may affect the water quality in a neighboring jurisdiction.
